

24 April 1970

Dear Art,

It was a great pleasure to visit you last Wednesday, and to receive such an entertaining and informative briefing on the vital problems for which your organization is the national focal point. Your information will be applied at once on my trip to SALT, in Vienna, and will also be most valuable in my regular assignment in ACDA.

I deeply appreciate the time you and Mr. [] devoted to the briefing, and the contributions made by [] and the others. It was also a pleasure to renew an old acquaintance with [] who did such a thorough job in making the briefing arrangements.

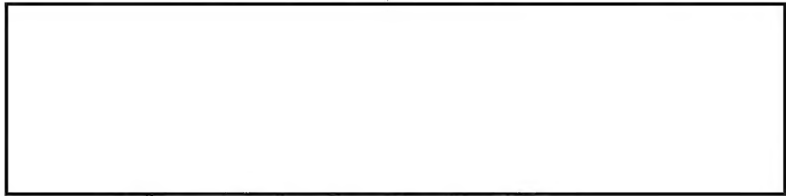

You and your staff have been, I know, of a great deal of help to ACDA in the past, through the direct technical liaison which you have encouraged, and in which [] has been our representative. I am grateful for your support and hope that this close contact can be continued to the benefit of both organizations.

Thank you also for lending me a camera. I shall return it promptly when my trip is over.
